College could receive funds for projects

As the Missouri General Assembly begins its recial session. Missouri Southern stands to meive some \$2.5 million under Gov. Christopher fond's recommendations

President Julio Leon told Southern's Board of Perents Friday that in addition to monies for the enstruction of Matthews Hall Phase II and mous projects under maintenance, handicapped ressibility, and energy, Bond has recommended deaning monies for an addition to Reynolds Hall. Bond surprised legislators when he opened the redal session last Wednesday, asking them to corove a \$150 million tax package.

Contained in the governor's tax proposal is per cent increase in corporate income taxes, a gobling of the corporate franchise tax, and a melouth cent increase in the state sales tax. It is the state sales tax increase that came previously manounced. The other two measures were ex-

Sen James L. Mathewson, D-Sedalia, chairren of a special Senate committee on studying the state finances, called the sales tax hike an "illgivised and last minute idea.

I think the governor will have a very difficult im getting it through," he said

Seaste Minority Floor Leader Richard Webster d'Carthage described an even bleaker scenario. ging the chances of passage were "none."

Debating the tax jumps plus issuing \$250 Then more in state building bonds, part of the 1800 bond issue approved by Missouri voters last par, should keep the Senate and House busy in the weeks ahead.

Senate President Pro Tem John Scott, D-St. lais hopes the bonds will pass because many bal governments are counting on the money for mstruction and maintenance work.

Scott said an authorization bill am the bonds its several emergency appropriations bills will waken up first by the House.

Other bills will be worked on by the Senate, indding one designed to close a loophole in the By DWI (driving while intoxicated) law. Two there are: a bill to create a new state job training Form, and one to allow Missouri to join a agional radioactive waste compact.

Mindy Woodfill is all smiles after being crowned Homecoming queen last Friday by Doug Carnahan. assistant dean of students. Woodfill, a senior psychology major, was sponsored by the Residence Hall Association. Jeanne Grisham and Dianna Stipp tied for first-runner-up honors. A record 532 students voted in the election finals.

Regents approve nursing degree

Members of Missouri Southern's Board of Regents unanimously approved the proposed four-year nursing degree Friday with the qualification that external start-up funds would be used to initiate the program. Approval was also given to a request that the faculty travel budget be increased.

Dr. Floyd Belk, vice president for academic affairs, presented the nursing proposal before the Board saying that the program "fits" the needs of the community.

Bells explained that Dr. Betty Ipock, director of nursing, and her staff had done a great deal of research in preparing the proposal which has been approved by both the Academic Policy Committee and the Faculty Senate with the understanding that it would only go before the Coordinating Board for Higher Education if external start up funds are found.

Bill Putnam, regent, asked for clarification on the five year requirement in which the degree must be achieved by a student. He wondered if the five year requirement included the two years at associate degree study.

"It does not include the two years of associate work," answered James K. Maupin, dean of the School of Technology. He explained that upon entering the program students would already as R.N.s (registered nurses), and they would then be expected to finish the degree in the five year period.

"In what manner is it unique?" inquired Jerry Wells, president of the Board.

The fact that the program is developed for part-time education and the requirement that states the student must "sit out" of the program for mm year while receiving on-the-job training, between receipt of the associate degree and work on the four

year degree are the unique qualities, said Dr. Belk. Dr. Julio Leon, college president, ad-

ded that the CBHE had liked this "sit out" feature. Wells then "complimented"

everyone involved with the development of the program and labeled it as a "milestone" for the college.

Requesting that the college "immediately increase the budget for faculty travel," President Leon talked about the need due to "across the board" budget cuts in previous years.

"We have decided that maybe certain areas should not be subjected this type of cut," said Leon.

Putnam described the action as getting it back in line with what it should be.

In the construction report given by Dr. Paul Shipman, vira president for business affairs, it was noted that the roof on the Billingsly Student Center was still causing problems.

"We still haven't cured the problems with this (BSC) roof," said Shipman. Shipman said work on Reynolds Hall roof was going well and was nearly

complete. Coming as somewhat of a surprise Leon told the Board that Governor Bond has recommended that Southern receive planning munites for the propos-

addition to Reynolds Hall. This money would come from this year's portion of the \$250 million bond issue that Missouri voters passed last

The Coordinating Board as well as the House Budget Committee had already recommended this money, but Leon said this was the first time the governor's office had announced its approval

Before adjourning the meeting regents voted to make Friday Nov. 18 their next meeting date.

PSU names Wilson new president

Enrollment change 'typical'

Enrollment at Missouri Southern has declined 3.8 per cent this year, but the actual number of students on campus in the same.

The decline is in the number of students who enroll between registration and the official census for the state," said President Julio Leon. "This includes continuing education classes and off-campus courses."

Leon said the decline could be due to the offering of fewer continuing education classes, and lower off-campus enrollment.

Enrollment this year reached 4,305, compared to 4,778 last year.

Since 1968, enrollment figures have declined only three other years. In a report to the Missouri Depart-

ment of Higher Education, Dr. Floyd Belk, vice president for academic affairs, compiled the following statistics: 2,552 full-time in-state students; 175 full-time out-of-state students: 1,262 part-time in-state students; and 29 part-time out-of-state students.

George Volmert, registrar, considers the decrease to be m "typical thing." Volmert said public reports early in the semester suggested an increase over last year, but were not accurate since they were taken at pre-enrollment and not after the students had begun classes and paid tuition.

"The pre-enrollment figure is confusing. Many students pre-register, but don't come to class. We usually have about 10 per cent of the pre-enrollers who do not show," he said.

Volmert could not attribute the

decrease to any one item. "I have no idea why we are seeing a decrease," he said. "It's hard to make any kind of a guesstimate as to why. Maybe the cost had something to do with it. I really don't know."

Although Southern is experiencing the decrease, overall enrollment figures since 1968 show m steady increase in the number of students attending the college.

According to Leon, this decrease will not have any effect on the current

Evangelists stage demonstration

Students at Missouri Southern had a chance to witness more than the crowning of the Homecoming queen Friday as a group from Ozark Bible Institute of Neosho and several evangelists demonstrated outside Billingsly Student Center.

The demonstrators revealed testimonies on their religious beliefs as for the group, expressed her views on Southern students reacted in various ways. By I p.m., a large crowd had gathered, and many Southern students had become angry at the opinions being expressed by the demonstrators.

Student reactions were basically the students' minds." The purpose of the demonstration appeared to be Christian oriented, but students and administrators agreed that the approach was wrong.

"What they are saying is basically true, but they have an right to condemn as for what we believe," said and Southern student who chose mus to be identified.

"There is no love," said Dr. Carmen Carney, associate professor of Spanish. "They are approaching it all wrong and condemning people. That is wrong."

The demonstrators condemned such things as make-up, designer jeans, drinking, drugs, fornication, homosexuality, and the hypocritical feelings they said most Christians have. They also openly expressed disapproval of other religions.

Cindy Smock, the principal speaker education.

"The state school system is of the devil, from kindergarten to post graduate," she said. "The instructors at the universities are corrupting

Smock, who professes to be a "born again" Christian and went "from disco queen in gospel preacher," has been preaching at colleges for five years. She believes "Christianity is a total commitment to the Lord Jesus. If you are not going to commit yourself to Jesus, you will go to hell."

At one point in the afternoon, Cindy was dragged off by security as Southern students cheered. The demonstrators began singing hymns, and within 15 minutes another speaker

began a testimonial.

George Jed Smock, Cindy's W band, spoke later in the afternoon gave testimonial and discussed be had gone "from long-haired, by drinking hippie to travel evangelist.

Secretary of the Week

Carole Willis

Many activities occupy Willis' time

By Lee Elliff

"I'm going to master the commte!" said Carole Willis, secretary in the women's athletic department a Missouri Southern.

Willis is one of many secretaries g Southern taking a class in permal computers. When she is am lesy working for her 15 bosses in the physical educaton department, de likes tal go bowling.

"I like to bowl for fun," said Wis. "Just recently my top score TES 209!"

Bowling isn't the only sport that Filis likes. "All sports interest

me," she said. Her favorite sport is dancing. She is a certified rythmic aerobic instructor.

Before working at Southern, she was employed as an airport that chartered private planes.

"I took flying lessons but I never soloed," she said. "It was fun!"

Willis and her husband, Jim, and both involved in various civic organizations.

"We travel a lot for these groups," she said

Willis has worked for Southern nearly 11 years next month. She can easily schedule her vacation around

her trips.

"My favorite place to go is Las Vegas," she said. Willis claims that she doesn't gamble large sums of money. However, the usually mins munny from the slot machines.

Willis keeps herself busy at her job sending recruiting letters for women's basketball, volleyball, and softball teams.

Working at Southern is "always something new and exciting," according to Willis. "I keep busy and I like it.

"I always try to help people whenever I can," she said.

Senate misuses student funds

Once again the Student Senate has appropriated funds for its own use. Members voted to fund the purchase of polo shirts for themselves.

The Senate wants to set themselves apart from others at school functions. The purpose itself is not a bad one but there are less expensive ways to accomplish it. For example, name tags or buttons could be used.

When someone becomes a Senator, be it collegiate, state or whatever, that person should give up the chance to fund his own projects. In this instance all clubs and organizations on campus should also receive funds to buy shirts.

According to the college catalog the Student Senate "serves as the governing body for students and acts as an intermediary between the faculty and student body." It is also to strive to promote the objectives of the Student Body Constitution."

Does the funding of these shirts fulfill any of the objectives of the constitution or help to govern the student body?

Last year organization went to the Senate requesting funding for a banquet. The Senate refused because It was not all open activity. Yet they did fund an and of the year banquet for the Senate. This is somewhat contradictory.

A petition to protest the use of student funds to purchase polo shirts is being circulated

It is doubtful the petition will come before the Senate because it is an after-the-fact action.

The Senate has taken on another selffunding project by entering a candidate for the "Mr. 10 contest." In the sponsoring someone, it has taken on the financial obligation of a \$10 entry fee.

all build win, the Senate ... July ecoive \$50. Whether or not the Senate stands to make \$40 off the event, it seems to be a gamble with student lunds.

The appropriation of student funds to sponsor a candidate in a contest is unethical. The contest does not benefit the students. nor does it aid in the government of the campus. But it does promote the Senate, the contestant, and the contest.

During these financially-tight times, student funds should be used to help the students. This can be done in a number of ways-one of which is giving scholarships to students in need.

Homecoming unique in ways

Uniqueness marked Southern's Homecoming royalty.

For the first time, a non-traditional student -Jeanne Grisham-was nominated for

queen. She even made it to the finals.

Another unique aspect was the fact that there was a tie for first-runner-up. This too involved Grisham

The non-traditional students on campus have taken a great step forward. In the past they have had to face the fear of coming back to school after "all these years." Now many can feel there will be a new meaning to Homecoming.

In Perspective:

Skills crucial for Americans hunting jobs

By Lorine Miner Director of Career Planning and Placement

It's m tough time to find a job. Some 10 million people are pounding America's pavements and nearly two million others are too discouraged to bother. Over five million work part-time but would prefer full-time jobs. More than ever, the right skills are crucial, for without them the job search can seem endless.

Despite the imminent turneround in GNP, the current unemployment rate of around 10 per cent won't ebb soon. Mass layoffs are declining, new claims for unemployment insurance have receded and the contraction in manufacturing employment shows signs of bottoming out. The average duration of unemployment, which always rises in a recassion and the early stages of recovery, hit a postwar record of 18 weeks and is sure to go higher. Of the 7.3 million people who are out of work because they lost their jobs, only 4.4 million are receiving unemployment benefits. A large but unknown number have exhausted theirs.

Since the recession's onset employers have pared 2.9 million jobs from their payrolls, more than 2.2 million of them in manufacturing, which never really recovered from the 1980 recognism. Industrial employment is off by more than three million from its peak in June 1979. The bulk of the vanished jobs have been blue-collar positions. One in five factory jobs has been eliminated since mid-1979.

The damage is centered in a few big industries: primary and fabricated metals. transportation equipment, non-electrical machinery, and textiles. All have lost market share se competitors from abroad and must introduce labor-saving technology to survive.

Other sectors of the economy have shown greater stamina but haven't escaped unscathed. Wholesale and retail trade-now the economy's largest sources of employmentshed 300,000 jobs over the recession. Even the eating and drinking industy is having its problems, as is another perennial grower. Government. Public payrolls, which increased 700,000 during the 1973-75 recession, are down by 200,000. Further layoffs are in store as state and local governments strain to balance their budgets. The unsinkable services did manage to add

niver 500,000 jobs during the recession, but that's the slowest rate of expansion in 24 years. Over half the new jobs were in just and industry, health. Most of the rest were in social services-some staffing the soup kitchens that have opened around the country-and the high-rolling amusement and recreation industry.

Employment will soon begin to grow, but the numbers reported by employers, which don't include farmers and the self employed, won't match their 1981 peak until mid-1984. Bluecollar employment will grow feebly in the period ahead, while the strongest call will be for labor to staff either low-paying service jobs or posts calling for specialized skills. The finance industry, for example, added more than 100,000 managerial jobs over the past 18 months, while it cut clerks and tellers. This reads like a recipe for structural unemployment.

Although the Federal Government reports that the recession is coming to an end, the Placement Office at MSSC has not felt the effects of the improved economy. Campus recruiters tell us that their hiring has not inproved, and several branches of the Government have not lifted their freeze on hiring. It is our hope that by the second semester we will see a great improvement in the economy and our 1983-43 graduates will have a much better chance of obtaining positions than did our 1982-83 graduates.

The fields that have a demand for qualified candidates are few in number. They include Math, Chemistry, Physics, Nursing and other Health-related fields, Computer Science, and Special Education teachers. The demand for business majors is down, although Accounting is still a field that has good employment pros-

With the focus on public education need for well-qualified teaching canin greater than ever before in the field de tion. According to the 1981-8! Readers respond to demonstration

Perspective:

Demonstration disrupts Homecoming

wanne Callaghan, President Activities Board

it would end with such a bang.

wastration was held in front of the Fryly Student Center. A group of facts fanatics staged an exhibition consisted of yelling, screaming, tomping on the ground. They ed they were prophets of God. mer, in my opinion it was only they believed. These people only they are holy and everyone else must be sinners. How can they at some one and claim that he or is a sinner? How can they call solustful just because they wear iner clothing?

bleve that religion wery imporinaperson's life, but fanaticism is supposedly associated with People who want to hear that of demonstration will go to a to hear it, but how can they somewhere when they know they dinitely not wanted? If food, ice, specially beer bottles were at my feet. I would certainly tell was welcomed. Free Speech is " speech, however, these costrators were obviously taking butage of the First Amendment.

The people were on our campus for bours straight stating their opito of the Bible. I believe that they have been there five minutes and everything in their speeches. or Cindy, a so-called saved woman, dhive said her entire speech in unit

minute. She gave the entire aspect of religion a bad name. Sister Cindy read verses from the Bible, but enterpreted week was MSSC's Annual the way she wanted to. If she really coming Week. There were knew the Bible as well as she thought attivities planned throughout she did, she would have listened to the time, but little did anyone realize audience. However, when a member of the crowd would shout something out. Friday, a so-called religious her only answer would be "you are a sinner!"

In my opinion, Sister Cindy is just a religious maniec. When she was discussing the designer clothes syndrome, she was pointing to people at random and calling them lustful However, when someonw asked her about her designer "Bass" shoes, she ignored them. Is this right? How can these people believe they we immortally sinless?

I cannot understand how these people get as many followers as they do How can people really believe such nonsense? There must be a lot of sick people or this situation would not be going on. Some of the so-called religious people were as normal as you or I, but they were so caught up in this mumble-jumble, they were almost crying Is there something we can do about this terrible situation?

The worst tragedy about this was the coverage that this incident received. Newspapers, Television, and even Radio reporters came out to interview these people. I think it is their duty to cover this type of demonstration, but why does this type of news always get top priority? I would like to thank the media however, for writing about this situation in a negative fashion, instead of hitting on the point of free speech.

Another important point I would like

to hit upon would be the students themselves. Ninty per cent of the students who rallied around the group did not agree with what the demonstrators were saying. However, there were some two hundred people who stuck around and listened to them all day. This is exactly what these fanatics wanted. They do these rallies to get the attention and that is exactly what they achieved As students, all we had to do was walk away from their demonstration and they would have gone away. Consequently, when people stayed and listened to them, this provided positive reinforcement for the demonstrators.

If we, as MSSC college students, do not have the intelligence to comprehend the farce of the religious demonstration, we do not necessarily understand religion itself. All we achieved by listening to them was to reinforce their sermons. We thought it was all a big joke, but this was a serious undertaking. Most of the students at the rally ridiculed and made fun of these people. Are we as bad as they are by doing this?

My only hope concerning this situation was that it did not turn people completely away from religion. It only takes this type of happening to make religion have a bad name. I can only hope that people will take this event in stride and accept it as a part of life. If this situation does happen in the many future. I hope we can prove our faith to the Lord by turning our backs on this fanaticism, and walk away.

I would appreciate any feedback that you have concerning this alleged religious situation.

Heidi Haas, seven-year-old daughter of Mario Haas, retreats to the comfort of her father's side during the evangelists' demonstration Friday afternoon. Mario Haas, a traveling prison minister, is usually accompanied by his daughter The evangelists' demonstration caused Friday's Homecoming pep rally to be moved to the Billingsly Center.

lanes offers help to the alienated

the Editor:

list a very real need to respond to group that came to our campus last by It is unfortunate that this presented God and His son a Christ in the manner that they will judge mankind and that to accept Jesus Christ as one's personal Lord and Savior will that person to spend eternity in Whn 3:18). But that is only helf sary. The opposite side of God as God as Savior. God out of his Rix us sent His son Jesus Christ

die for the sins we commit (John 3:16). God offers all people a way out of the judgement that is inevitable for all of us, by sending His son (Romans 6:23). He offers to all of us the gift of salvation. This salvation happens when an individual confesses before God his sin The Bible does indeed teach that and invites God's son Jesus into his life to be his Lord and Savior (Romans 10:9 & 13). This simple but yet profound decision opens a person up to God who wants a right relationship between Him and each individual person. This experience is not merely to escape judgement but to experience all of what God wants us to have through

Ham (John 10:10).

It is not my purpose in this letter to convince anyone of certain denominational beliefs, but rather to help anyone who was confused ar alienated by what happened Friday to understand that God is both Judge and Savior. If I can be of help to anyone who may have any questions, please feel free to stop by the Baptist Student Union building over by Pronto, or call me at 624-925. Thank you.

> Michael Banes BSU Director/Campus Minister

Student believes 'invasion' is God's work

My God hath sent his angel, and that the lions mouths, that they and hurt me: forasmuch as before nuncency was found in me; and before thee, O King, have I done no n'-Daniel 6:22

The are two methods of preaching Wi word. One approach, the nonstening "Smile, Jesus Loves You" has been afforded the luxury of its syrupy message mass prote on bumper stickers. While this phrase probably evolved in blention. I fear it has produced harm than good. God is loving. to secure this love requires adop-31 special lifestyle which the vast

majority choose not to accept. The idea of employing this prudent tactic to win souls for Christ appears as realistic an the unlikely "Smile, Uncle Sam loves you Join the Army." Additionally, this love concept has created a generation of misguided people, professing and believing themselves Christians, affirming their faith with uplifted hand (if not too ashamed or embarrassed) who are in fact still lost. Now, I don't pretendd to claim that the "Smile, God Loves You" tactic is entirely ineffective. I am simply suggesting that this wimpy approach allows this new breed of pseudo-Christian to erroneously assume that God condones continued and deliberate acts of sin when He is in reality deeply hurt and outraged.

The second method of spreading the Jesus also had to wake people up in the nately, some of God's people have proach, usually followed by a couple of is a matter of free will. hear that we are "traveling down the continues. Campus minister disagrees

I feel an urgency to respond as our recent campus preaching. At the outset please do not mistake "Brother Ed" for "Brother Jed", You see my name is Ed Reynolds. Campus Minister for the KOINONIA Campus Ministry.

By way of testimony I mer Jed and Cindy four years and while working at the University of Oklahoma in Norman. Let me heartily say I disagree as much now as 1 did then with their firework display

of arrogance and ignorance. So, now that it's happened, let's consider some positive identification with the situation. We have been reminded we live in a sinful world. also, Jesus of Nazareth is the Son of God and foundation of mir Salvation That even in Colossians 1:17 the apostle Paul said, "He (Jesus) is before all things and in Him all things hold together." I'm glad we have been reminded Jesus is the focal point of life.

On the other hand, one central weakness is very obvious...that is, partial or even complete truth, if poorly presented is still unacceptable to us. For example: Good food

delivered by a rude, unkempt waitress loses its appeal and causes one to "blame" the cook. Please don't reject what truth they might have had because of your reaction to the messenger.

One other positive aspect, if I may, is the fact that the boundary of God's love is very broad. In this boundary, KOINONIA hopes to operate. As a campus minister I am here me to yell and condemn, but to share with you Biblical truths in a loving and supportive manner. In Jesus, I have that liberty. I am happy to serve the students and faculty of MSSC. I see so much good and potential in all of your lives. And so from the pen of "brother Ed" let me say, "I love you." If I or the KOINONIA Campus Ministry can ever help you, please call. The KOINONIA office is located at the College Heights Christian Church. Our phone number is 781-LOVE. Thank you for taking time to read my article of concern.

ARTS

Milsap to appear in concert at Memorial Hall

Country recording artist. Ronnie list of musical abilities by the age of 12, Milsap will be featured in a concert sponsored by the Campus Activities Board. Gene Cotton, popular folk singer will open the concert at 8 p.m., Wednesday, Nov. 2 in Joplin's Memorial Hall.

Milsap, who was born with congenital glaucoma has been blind since birth. His parents had their marriage dissolved when he was a year old. His grandparents took him in and reared him as their own until he was six years old. He then went into a special school.

Like many other country stars, he got his start singing in a little southern church, but unlike most of them he started formal music training in the throughout Raleigh. first grade.

Teachers at the Morehead School for the Blind, where he was attending school, discovered his ar for music and encouraged him to expand his talent. By the age of seven he had become a skilled violinist. By eight, he had learned to play difficult compositions by such composers as Bach and Mozart.

He also began learning to tune Raleigh, N.C. schools. He would tune three or four a week for two dollars per

In addition to playing the violin and guitar he played the piano and several other instruments.

Although Milsap was well trained and enjoyed playing classical music, he also enjoyed rock and roll. He was suspended from the practice rooms several times after he was caught playing rock music.

After expelling him several times, his teachers at Morehead decided he was not going to give up playing rock music, an they consented to let turn and several classmates form a rock combo. They called themselves the Apparations, and played for proms and hops

He attended Young Harris Junior College in Atlanta, Ga. for a while after leaving high school. He was offered a law scholarship to Emory University but his turned it down to pursue his music cereer.

It took sometime for him to break into the music field after leaving school. He began his career by performing in shabby Atlanta night clubs.

Later, Milsap left Atlanta and began pianos when he was seven years old playing at a club in Memphis called "That Girl Who Waits on Tables." and at 14 he began tuning them for T.J.'s for six at seven hours a night, his nights a week.

Jack Johnson, who is manager for formed together for the next fifteen

heard a performance by Milsap, and told Pride about him.

Milsap recalled his phone conversation with Pride in "Weekend" of the Dallas Time Hearla.

"I was playing a week in Los Angeles in 1970. Early one morning the phone in my motel rang, and this guy un the phone was singing, "Is Anybody Going Im San Antone?"

"I don't know who you are, but you sure de a fine imition of Charley Pride. Milsap said sleepily. 'I am Charley Pride, the soft wairs laughed. 'Come down to the lobby. I want is meet you."

Pride listened to Milsap's performance that night, and told him afterwards that if he would go to Nashville, he would help him.

Milsap dad move to Nashville until two years after that conversation with Pride. But, after he did make the move, things in his life began to look brighter.

He received a recording contract with RCA, and it had Pride's label. He cut two top in songs, one of which was "I Hate You," unil the other was

Pride was so impressed with Milsap's songs that he called him and This was a breakthrough for him. wanted him to join his show. They per-He had added guitar playing to his country recording star Charley Pride months a time in which Milsap began

to raise to stardom.

In 1974, his song, "Pure Love" hit the top of the country charts, and another song, "Please Don't Tell Me How the Story Ends" won a Grammy. Since then he has won two more Grammys. He has been named Country Music Association Male Vocalist of the Year in 1974, '76, '77 and '83.

In 1977 He received Entertainer of the Year and Album of the Year. He was chosen as Billboard Magazine's "Best New Male Artist" in 1974, and "Male Single Artist of the Year" in 1976. There have also been numerous other awards added to his collection.

Since these events in his life, Milsap's career has catapulted. He has nearly 30 number one singles, six gold albums, and and platinum album to his collection.

He has his own studio, Groundstar Laboratories in Nashville. Milsap, along with his wife Joyce, and 26 employees operate his business and publishing companies.

As for the affect blindness has had upon his life, he said, "Had I been sighted. I'd have grown up in my be purchased for \$12.50. hometown in the Smokies and worked Tickets may also be purchased in the sawmill or something. Which Joplin Memorial Hall Box Office E would have been fine, but in a large Williamson's in Joplin and Pittale sense, my blindness has been a bless- Andy Eck Music in Grove, Oil ing because it took me totally out of Charles Campbell Music in Miami

"It changed by destiny from the my father and grandfather. My life is different today, because t blind. I know I wouldn't be doing I am doing today. My life as it la citing and I wouldn't trade it anything.

"I can't tell you I don't want to to my son Todd grow up to Joyce and all the people that I le lot and all the beauty in the world just been fortunate that I've aday myself to being sightless. But not saying mine is a world of dark because the love of people lights to life so much, that what I see in mind is very bright."

"I love what I do and it's to thep where I don't have to we it to do it takes a little longer for anyone vis disability to climb the mountain by can be done!" said Milsap in an in view with Country Music Scene.

Film Society to show Reed's 'Odd Man Out'

The critically acclaimed film, DMd Man Out, will be shown at 7:30 p.m. on Tuesday, November 1, in the Connor Ballroom of the Billingsly Student Center.

This is the third program in the 22nd Annual International Film Festival presented by the Missouri Southern Film Society. Financial assistance for this event has been provided by the Missouri Arts Council.

Odd Man Out has been compared to The Informer in theme and treatment. James Mason plays the idealist leader of an illegal political organization in Northern Ireland who is wounded during a raid on a Belfast flax mill and staggers away alone, the "odd man out." This doomed flight, as the bleeding man is sought by his friends and hunted by police, is analyzed in detail by the master film maker Carol Reed.

The reaction of film critics to Odd Man Out is strongly favorable. George Sadoul in his Dictionary of Films were mented. "James Mason, in a role with little dialogue, gives a brilliant performance and the supporting characters, largely actors from the Abbey Theatre, are sharply drawn." Regarding the director, Bosley Crowther of The New York Times has written, "Mr. Reed can be glowingly commended for his artistry in movement and mood ... you should find it (the film) a real experience."

Admission is by season ticket or single admission. Season tickets for the remaining ten film programs are still on sale at \$5.00 for adults or \$4.00 for senior citizens ar students. Single admission is \$1.50 for adults and \$1.00 for against citizens or students.

James Mason's role as Johnny MacQueen has very little dialogue, but Mason gives an outstanding performance in his role as the idealist leader of an Illegal political organization.

Art center plans symposium

Three nationally recognized photographers will be featured at a symposium presented by Spiva Arts Center. The symposium, entitled "Photography and the Question of Quality," will take place at # p.m. Tuesday in Phinney Hall.

The photographers will be showing personal choices of slides they feel to be great photos, and explaining the reasons for their choices.

The panel will include Keith Davis, Curator of the Hallmark Collection in Kansas City, and this year's Photospiva juror: Larry Ferguson, freelance photographer from Omaha; and Michael Peven from the University of Arkansas in Fayetteville.

"What really prompted this was the tremendous success we have had with Photospiva," said Val Christensen, director of Spiva Art Center and organizer of this event, "It became evi-

dent there was a knowledge was ween what was being presented of the individual viewer's understant of why it was on the wall."

Photospiva is an Itt photographic competition, with ear coming from all over the com "Photospiva 83", the 7th and photography competition, will a Nov. 20. Christensen said just me we ke

other skills, we have to learn how to terpret photography. He said carry around the assumption the it's physically there we see it. Culta anthropologists have proved this ? relates to the aesthetic experie which, in general terms, is a heighter state of sense perception."

With the right training, he c tinued, you can "filter out the stra and really be able to see what's the the photograph.

CAB to sponsor pumpkin carving

Students interested in expressing their artistic abilities should enter the Campus Activities Board pumpkin carving contest from 11 a.m. to 1 p.m. Monday in the Lion's Den.

According to Kathy Lay, overdinator of student activities, each person is to purchase their own purch for the event. Pumpkins may be po chased from the CAB for \$.50 rach there will be a limited number of par

Lay said the reason for the event simply "because it is Hallo een."

Debators place at SMSU tourner

For the first time ever, Souther debate team placed at the Southest Missouri State University Debi Tournament in Springfield weekend.

In the junior division, the team freshmen Todd Graham and Do Watkins placed fourth, losing to a La man University team in the quality finals. Graham and Watkins have! per cent win-loss record after in tournaments.

The debate team of Michael and Dana Frese competed at C.E.D.A. level, missing octafinals speaker points. At this level, 16 tel were taken to quarterfinals. Tosh Frese just missed the quarterfinal they were the 17th team. Individual classes of interpreta-

of poetry and interpretation of pr were entered by Martha Walks senior from Joplin.

The team of Walker and Doennig, a junior from Monett, peted in the Duo Interpretate

For details contact Captain Ken Webster in PA 109 or call 624-8100, ext. 245.

Three main actresses in "The Effects of Gamma Rays on Man in the Moon Marigolds" are, from left to right: Nancy Craig, Pam Lutes, and Leslie Bowman. The plays opens Wednesday on campus.

Comedy-drama to open in Taylor

Comedy-drama with a contemporary audience appeal will he the thrust of the second theatre production all Missouri Southern. The Effects of Gamma Rays an Man in the Moon Marigolds, by Paul Zindel, premieres in the Taylor Performing Arts Center um Wednesday, Nov. 2 at 8 p.m. Performances are to continue through Saturday, Nov. 8

Directing the play is Milton W. Brietzke, director of the theatre department at Southern Supervising costume design is Joyce Bowman, wardrobe consultant.

Five women have been chosen to perform in the Pulitzer Prize winning play. They are Pamela Lutes of Osceola, an Tillie; Leslie Bowman, Joplin, as Beatrice; Nancy Craig. Joplin, Ruth; Jenny Larkin, Neosho. Nanny; and Charla Carpenter, Sarcoxie, a playing the part of Janice Vickery.

The production area is comprised of three men. Chuck Good from Carl Junction, will hear a student theatre laboratory crew in the construction of

the set of Gamma Rays.. The play takes place in a run down store where Beatrice's family lives.

Property master is Todd Yearton, of Joplin. He has assisted in making and collecting such unusual props as a cat skeleton, and live rabbits. These will be used in Tillie's scientific experiments.

The play's theme centers around m destitute mother who has lost control of her dreams and ambitions. Mother Beatrice takes and her frustrations on her impoverished family. Tillie, Beatrice's daughter, stands mut in the play as an aspiring scientist who usus her talent to overcome her economic disadvantages.

Brietzke said, "I chose the show because it said something to a contemporary audience. Tillie is the metaphor, the individual who can transcend her background. Because of her knowledge, she is a giver, as opposed to the takers who take and never return anything. It is a very up play. The college students could identify with it."

Lion Pride Marching Band entertains fans

Members of the Lion Pride Marching Banil entertained fans Saturday afternoon during half-time festivities of the homecoming football game.

Members of the band and auxiliary units had put in several hours each week practicing the shows. Songs and pictures (formations) are rehearsed many times because they must be flawless.

The show that was performed Saturday has also been performed at other Southern home football games as well as a Webb City high school game this season. The show included "Thunder ami Blazes," a well known circus tune which began after the band filed onto the field into starting formation. Following this tune was "Here's That

Rainy Day," which seemed appropriete for the weather of the day. This same was coupled with "Brand New Day", and followed up with the drum feature "Tico Tico," in which the horn line filed up the 40 yard line and proceeded into an "X" picture which they then rotated.

The closing song was "It Was Almost Like a Song," by Ronnie Milsap. Following that, the hand formed another picture for the crowning of the 1983 Homecoming Queen, Mindy Woodfill. For the coronation, the band played "Here's That Rainy Day," and then filed off the field, saluting the audience with sectional salutes.

Due to inclement weather, the show

which was originally to be performed had to be postponed until this Saturday afternoon for the half-time of the Southern/Fort Hays State football

The new show will include "Thunder and Blazes," "Here's That Rainy Day," "Brand New Day," and a new drum feature in which the drum line plays the drum carried by the person next to them. Also in this feature, the horn line rotates in a series of circles. After the drum feature the band will perform "Caravan" which was performed by the band during trhe downtown homecoming parade Saturday morning. The hand will close with "It Was Almost Like a Song."

still boards guests and is a favorite honeymooning spot. A typical view of a shop-lined street in downtown Eureka

Eureka Springs offers refreshing alternative

Nestled people the heart of Ozarks country, Eureka Springs, Ark, is a tourist village of 1,989 residents which had its origins as "The city that water built" in 1879

Eureka Springs offers an alternative to run-of-the-mill shopping areas. Hundreds of craft shops boasting an air of European style line the all streets. The town earned its nickname intermediate the numerous natural springs in the area.

During the early years of the town, wealthy residents escaped on the weekends to relax in the retreshing springs.

Many attractions greet the visitor to Eureka Springs. A live steam railroad, The Eureka Springs & North Arkansas, makes daily tourist trips down a line that used to the an actual railway route. Conductors and engineers dress in uniforms similar to the early 1900's style, and rail lans have a chance to catch yesteryear railroading sat against the scenery of the Ozark hills.

Several historic buildings still stand in the town The Crescent Hotel, built in 1886, still boards guests. The hotel stands high on a bluff overlooking the town and is accented with a large flower garden. The hotel has been a favorite spot for honeymomners for over a century.

Overlooking the Eureka Springs valley in the 70-foot high Christ of the Ozarks. Carvin concrete, the statue marks the spot on Mount Oberammergau where the passion play is enacted five nights a week

According to store owners in the town, the various shops are what draw most tourists to the town. Wooden toys, dollhouses, old-fashioned toys, old-fashioned drug stores, book stores, and Ozark gifts are among the many items sold in the shops. There are also many restaurants serving tourists breakfast, lunch, or dinner

Streets in Eureka Springs are steep, hilly, and curvy. Shops line both sides of Illin street, creating the European atmosphere. Many houses in the town have been ornately decorated with gardens and picket fences.

In addition to the attractions within the town, there are several items of interest surrounding Eureka Springs.

Tourists with an interest in pre-historic dinosaurs may visit the "Land of Kong," a 65-acre outdoor museum of life-size concrete dinosaur repticas. The museum was built years ago by Emmet Sullivan, the sculptor # "Christ # the Ozarks." The museum is claimed to be the world's largest prehistoric park. The park is located 11 miles northwest of Eureka Springs on highway 187.

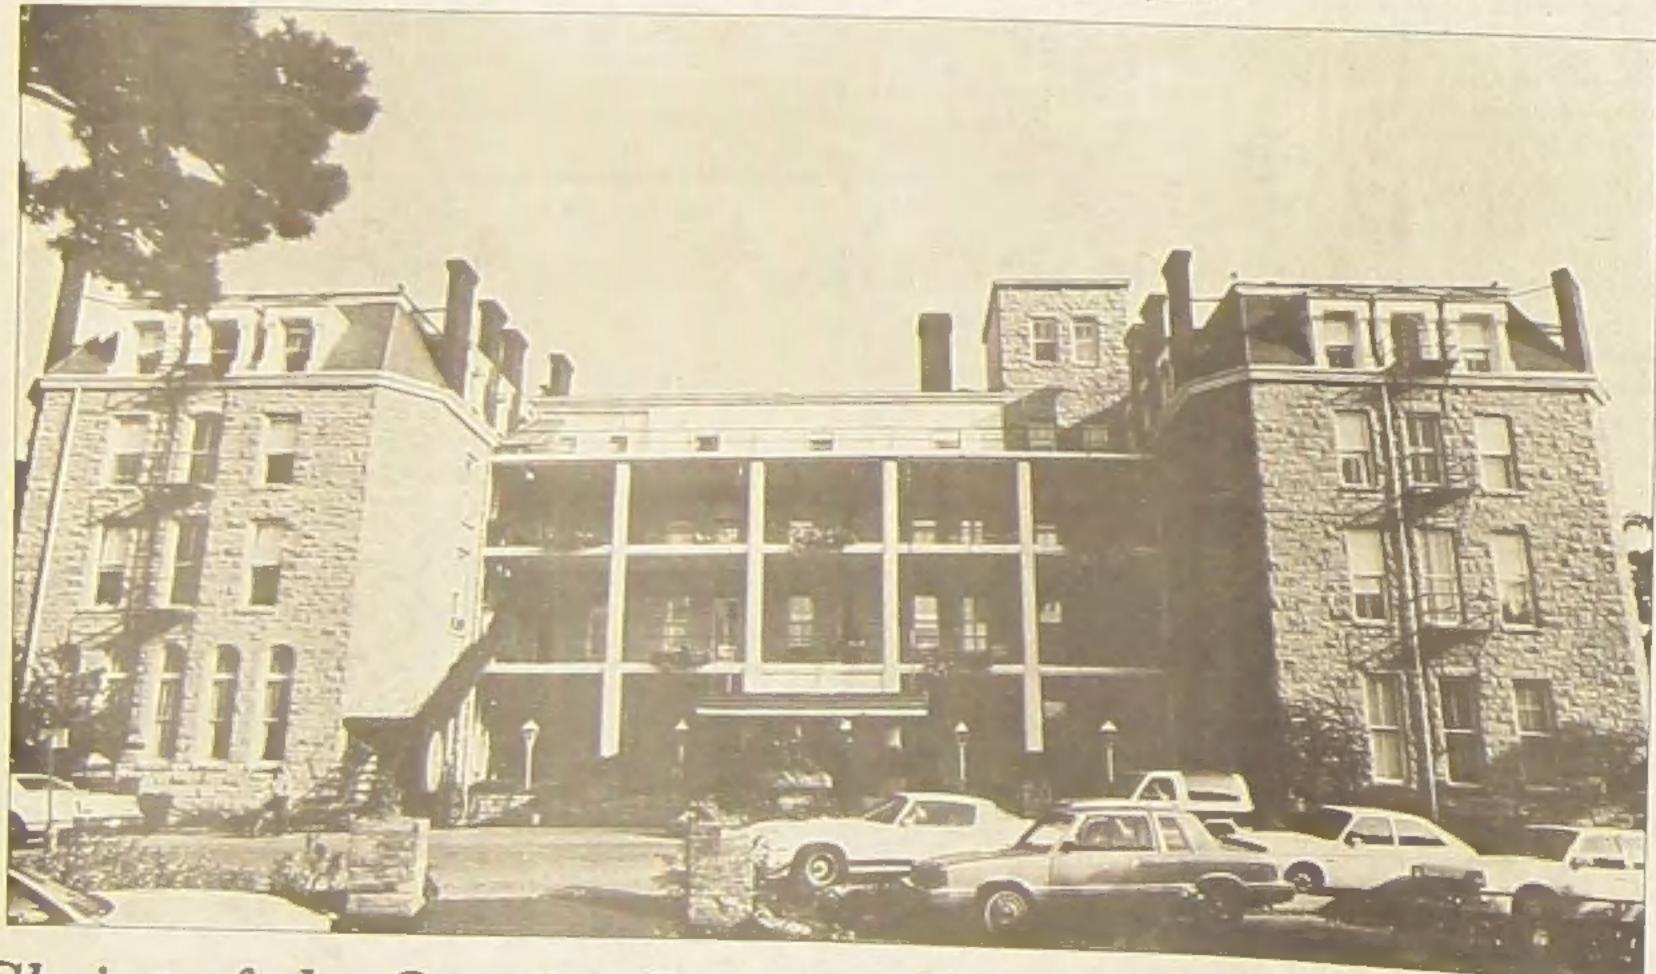

Sightseeing in Eureka Springs can be done either by and, on foot, or by one of the many tourist busses that operate in the village. A park on the Main Avenue in a good resting place for those who wish to soak in the atmosphere.

Fall is the most photogenic time of the year to visit the village. Seeing the trees in full fall foliage is a sight many would not want to miss.

One claim to fame Eureka Springs has is its bout with Hollywood producers when Columbia Pictures filmed the television mini-series The Blue and the Gray. In the film, which centers on a Civil War enactment, scenes of soldiers, the railway, and the surrounding countryside are featured.

Eureka Springs is the type III place people might escape to if they are in the mood to get away from it all. If anything, the village offers a place where visitors can take a day off with the family a get a glimpse of days gone by and a browse in the many shops offering items had found just anywhere.

Eureka Springs is located and highway 23 in northern Arkansas. Being just a two-hour drive from Joplin, the village makes for a great entertainment for Ozark residents who are in the mood for something different

Conductor Bob Curnock helps passengers off the train at the Eureka Springs railway station.

Engine Number One (left) prepares to take another trip into history an the E.S. & N.A. Railroad.

> A standard gauge steam railroad through the Ozarks, restoring, preserving and promoting the Age of Steam

Railway presents trip into the past

Sitting inside an early 1900's style in the tender and say, 'Hey, is this coach, tourists see and hear a rush of steam erupt from a steam locomotive ahead. The smell of choking cinders and wood smoke fills the air. A conducham calls out his famous phrase, and with a lurch and a blast of the whistle. the Eureka Springs and North Arkansas Railway comes to life once again.

Serving as a side attraction to the tourist village of Eureka Springs, the E.S.& N.A. Railway is a live, full size railway illustrating a convincing picture of railroads in the early 1900's.

The railway has not always been this active. In just over two years, the railroad has grown from an abandoned right-of-way and a delapidated depot to three locomotives, several pieces of rolling stock, and nearly two miles of track. The depot has also been restored, and serves as the ticket booth, snack bar, and gift shop for Visitors.

The railroad makes regular tourist trips to a picnic spot and back to the depot seven times a day. The trip, which lasts approximately 45 minutes. includes a stop for a locomotive boiler blowout, a picnic stop during which tourists may board the locomotive to converse with the engineers and conductors, and the Ozark scenery along the way.

As tourists conjure up the memories and Casey Jones and Jesse James, the conductor strolls the aisles of the cars. putting on a show with railroad trivia and years of knowledge riding the rails.

The railroad employs several workers, including two conductors, several engineers and firemen, and workers in the depot snack bar and gift shop. The employees sport authentic uniforms, and help in creating the illumism of life long ago.

questioned him on his railway exper- table. tice. They will look at the pile of wood

coal burner?""

Pyle comes from a family of railroad workers, and his father worked for a major railroad in the four state area until World War II.

Pyle was very pleased at getting an opportunity to operate the steam locomotives.

"I was really excited about the job," he said as he adjusted the controls on engine number 1. "Not many have a chance to do something like this."

Last year, Columbia Pictures filmed a Civil War feature entirely on location Eureka Springs. The film was aired en CBS-T.V. last year. In the picture, the train was featured in several scenes. During the filming, Pyle felt he was nearly transported back to the Civil War years.

"I had to get here at 6 in the morning for filming." Pyle said. "When I drove up that morning, there must have been 200 Union Soldiers all over the place. They dressed us (the railway employees) up in old clothes. It was really fun."

Bob Curnock, a conductor for the railraod, actually was part of the film cast. He humorously described the criteria for his part.

"You had to have lots of talent," he said jokingly, "I really had fun playing the part of a Southerner. I even got paid for it. I was never sorry I did it."

Dave Nichols, another conductor, makes toys for Eureka Springs shops when not riding the rails.

"I started out here as a janitor," he said. "I then was offered the job of conductor, and took it. I also make wooden toys for the gift shop at the depot."

The railroad has many plans for the future. The third locomotive, a Limabuilt Shay, was recently purchased and Boyd T. Pyle, Sr., a locomotive will be restored. Other plans include engineer for the railway, has been restoring an old dining car into full seroperating locomotives with the E.S. wice so meals may be served during the N.A. since it was restored three trip. The track will also be extended sivans several new trestles, through a "You get a lot of strange questions tunnel, and eventually to the old juncsometimes," Pyle said as he thought of tion mais line. Plans also include the several amusing tourists who have erecting of an engine house and turn-

Student's parents establish scholarship

By Barb Fullerton

Seneca High School seniors have the opportunity to earn a \$100 per semester scholarship at Missouri Southern through the Charles Albert Green Memorial scholarship fund.

The scholarship was established by Green's parents, L.T. and Edith Green of Seneca

Green drowned in the Gulf of Mexico at the age of 21 during Southern's 1975 spring break. He was a senior, majoring in business administration.

At Seneca High School, Green was president of the Future Teachers Association during his senior year. He was business manager for the Warrior yearbook and was a member of the National Honor Society. Green graduated in the top 15 of his class.

"He was an outgoing person and very active," said Virginia Higgins, n Seneca High School counselor. "The 1975 Warrior yearbook was dedicated to him. It said, 'He will always be remembered because he was loved'."

Green lived on a farm most of his life, but wasn't interested in farm-

"Charles liked to eat the food from the garden, but not work in it." said his mother. "He had a mathematic mind. He wasn't a farmer. Charles wanted to work with figures and be around people."

One of Green's hobbies was collecting drinking glasses. "Every place he went, he bought a glass," said Mrs. Green.

"After his death, we had many calls and compliments about Charles and how he had helped the same people," and Mrs. Green. "He would go out of his way to do many things.

"Charles loved to be with his family and enjoyed being home," she added. "He had friends everywhere. He loved beautiful things."

Drummond: 'One of the tops in the early days'

By Kathleen Stokes

Every year approximately 10 science majors at Missouri Southern are alike. awarded the Edna Drummond Memorial Scholarship. To the students she is known simply as a name on a piece of paper. But what of the person that bore that name?

Drummond, a native of Bentonville, Ark., died in 1966. She served as the first dean of wanten for Joplin Junior College and taught science there from 1937-1955.

Drummond was a member of Delta Kappa Gamma, am honorary educational sorority. She taught as Joplin High School from 1930-1937,

"There never was a more professional woman, said Cleetis Headles, a professor of English at JJC and Southern. "She was so conscientious about the students and being fair."

Headlee said Drummond didn't tolerate inefficiency and was demanding. She was firm with the students and set high standards, yet she was willing to work with them

"She was an extraordinarily fine teacher," said Martha McCormick, professor of mathematics at Southern and JJC. "She was very much concern-

ed about the students."

McCormick said Drummond was loved and admired by staff and students

"She was one of the loveliest woman you ever met," said Headlee.

Drummond was a tall, rather imposing person. She was graceful, dignified, and serious-minded. Yet she had a humorous side.

McCormick recalls a joke they

"Edna was a science teacher, but she was always afraid she was going to catch some terrible germs from the science department.

"I was a little afraid myself to invite her into my apartment because of the germs I thought I might catch from

After Drummond's death, a perpetual memorial was established for her by her sister, Mamie Drummond. A. donation of \$43,187 was accepted by the college, and scholarships began to be awarded in 1972.

"She contributed to making the school what it became," said McCormick. "She was some of the tops in the early days," said Headlee. "I was so happy to have known her."

This photograph of to Drummond appeared the 1951 Joplin June College yearbook to Crossroads, Drumno taught science at III 1937-1955 and also served as the deand to women She died in

Daughter makes Landreth's dream a reality

By Marty Oetting

Harry H. Landreth's dream came

Landreth's daughter, Mary Jane Landreth, established a scholarship fund for nursing students at Missouri Southern to continue his support for education. Although he never finished high school, Landreth's dream was to make sure his four children did obtain un education.

Mary Jane and her three brothers all finished high school and college. Mary Jane received a degree in nursing from Washington University in St. Louis.

"He was always big on education, and I just wanted to further education as he had done." Mary Jane sain.

Landreth was born in Pittsburg, Kan., in 1882. During his childhood, he lived in several different places in both Kansas and Missouri. He attended high school for only a short period. He was forced to quit school to help support his family.

childhood days working am the family farm. The family had a large plot of land near Neosho, and later Landreth moved to the area in Joplin that is now Royal Heights.

He married Pearl Hussman in 1918

and went to work with his brother at Landreth Machinery Company in Joplin. The company specialized in selling and refurbishing mining machinery for the lead mines in the susa.

"He was very active in the 'Y' and American Legion," Mary Jane said. "He also used to run the wrestling matches held during the depression

Many of the mines closed down during the 1930's, and business at his company declined. He became president of the company after the depression, and production began once again.

II, but by 1952 a majority of the area mines were closed down. The company went out of business.

His family was involved with farm- was hunting. Mary Jane remembers ing, and he spent many of his many hunting trips she went on with

"He was quite a hunter. He made

her father and three brothers.

bunting bums out of my three brothers," Mary Jane said. Mary Jane remembers an amusing

incident in which her father was confused with Harry S. Truman.

"The folks were in the Bahamas, and some people thought he was Senator Harry Truman," she said. "They even sent him a bunch of fruit."

Landreth died in 1964 at the age of

Mary Jane left the scholarship to nursing students because of her affiliation with the nursing profession. The scholarship was originally called the Florence B. Nightengale Fund.

Although Mary Jane is often unable to attend the scholarship banquet, she did attend one year and had the Business boomed after World War pleasure of meeting the women who received the scholarship.

"I enjoyed meeting the girls," Mary Jane said. "There is a certain amount One of Landreth's favorite pastimes of pride that you are able to help others with their education."

Gier: 'He was the most demanding teacher I had'

By Kathleen Stokes

"The last of the group of 19th century naturalists," is how Dr. Leland J. Gier is described by Dr. James Jackson, professor of biology at Missouri Southern.

Gier, who retired from Southern an a professor of biology in 1972, died in July at the age of 79. He also taught at William Jewell College in Liberty, Mo., for 27 years.

Jackson said Gier was one of the best of Science. teachers he had known.

"He was always really excited about learning," said Jackson. "He liked to work with the students on a one-to-one basis. He thought of them as a big, extended femily because he had no children of his own."

Gier's wife, Margaret, said: "He was never too tired or busy to help the students."

Donald Seneker, assistant professor of criminal justice administration at Southern, studied under Gier at William Jewell in the early 1960's.

"He was the most demanding teacher I ever had," said Seneker. "But it was because he wanted you to learn, not because he was trying to make things hard.

"Dr. Gier was a fantastic scholar," added Seneker. "There was no stopping the breadth of his interests."

Seneker, who was named the Outstanding Teacher at Southern in 1982, said: "Whenever I think I'm doing a good job at teaching, I compare my teaching to Dr. Gier's. He was one of those rare people that don't come around very often."

Gier was elected a Fellow of the American Association of the Advancement of Science in 1940, and in 1976 he was awarded the only honorary life membership in the Missouri Academy

Jackson said Gier strongly believed in undergraduate research. He extended this to a strong belief in publication of faculty research.

"He was dynamic and energetic-real spontaneous," said Jackson. Gier's hobbies were photography and stamp collecting. Many of his photographs of flowers and world botanists are displayed at the Hunt Botanical Library at Carnegie-Mellon University in Pittsburgh, Pa.

"He wasn't restricted," said Jackson. "He was interested in everything and he loved being in the

Said Mrs. Gier, "He loved nature and he loved to walk."

Memorial contributions may be made to the Missouri Southern Scholarship Fund.

Debbie Dinitto of Southern's financial aids department says, "One of the scholarships is for \$350 and the other one is for \$250. One is an assistantship makes is impossible to survive for which the student works so many hours and the other is an out-right gift. The art faculty select the two scholarship recipients each year."

Henry Hornsby was m prominent Joplin industrialist. He owned and operated the Central Foundry at 101 North Maiden Lane for almost a quarter of a century before his death March 16, 1946. The 80-year old Hornsby had traveled widely as vice president of United Iron Works. During the years Hornsby was affiliated with United Iron Works the St. Louis native lived in Springfield, Mo. In 1917 he purchased the Central Foundry of Webb City. He moved to Joplin in 1919, at which time he built the Central Foundry on Maiden Lane.

In 1932 Mr. and Mrs. Hornsby movml into the two-story rock house they had built at 119 West F Street. About two years after the Hornsbys moved into their home, County Assessor Jim Willis, then a boy of II asked the couple for a job.

As Willis tells the story, "They thought that I was too small to work. I said that if I did one-half as much work as the bigger boys they could pay me one-half the wage and if I did one-tenth the work of the bigger boys they could

pay me one-tenth the wage." Willis got the job. It was the beginning of a lifelong friendship.

Mr. Hornsby was very conservative in some ways. He owned three identical suits, "You couldn't tell when Henry changed suits," said Willis. "But if Mr. Hornsby wanted something he would pay dearly," Willis said.

Mrs. Hornsby spoke five languages. She enjoyed traveling. When she wanted to attend the opera in New York City, she would get on a bus and go. Often she traveled with her father, Alexander Handlan A bequest was made by Marie Hornsby in memory of her father to the Academy of the Visitation in St. Louis where she had attended school. The stipulation wasthat the money be used for scholar-

Most of the helping gestures made by Marie Hornsby were made anonymously, according to Willis who was instrumental in seeing that Mrs. Hornsby's plans were carried out.

On man occasion she sent \$100 to some people whose child had a badly cut foot and they could not afford treatment. Another time she sent blind woman \$500. Still another incident involved paying # \$141 medical bill for a poor woman, after which she sent the paid-in-full receipt and \$100 in years." Mrs. Thies continued, "I don't around. She really gave for the percash to the woman. Mrs. Hornsby gave recall her ever being an active partici- sonal satisfaction of giving, not any all of her china away. Some of it was pant in the center. Much was needed praise or reward."

b a considering the possibility bining journalism with a nursree for a new career in medical writing.

"I decided to go into nursing for practical reasons, such as job availability," she said, "but I've been interested in nursing for a long time. I don't know yet what area of nursing

Williams, a freshman, has also tudents. Any questions, com- worked as a dental hygentist on a parttime basis. She graduated from a Texas high school in 1972 and later moved to Arkansas. Her husband, Bob, was worked on his master's degree in agricultural economics at the University of Arkansas. He is now a farm management specialist with the University of Missouri extension of-

Williams' husband is supporting her in her career. "He values education and knows what it takes to do a good job." she said. "He helps with babysitting and takes the children places so I can have a couple of hours of uninterrupted study time. During that time I am not to be cleaning house, washing windows, or taking a nep-just studying."

Kassab graduated from Memorial High School in Joplin in 1976, then obtained a journalism degree in magazine

writing from the University of Missouri-Columbia.

She has worked for The Chronicle of Higher Education, a magazine based in Washington, D.C. Kassab also spent six months doing press work and secretarial chores for Missouri Senator Jack Danforth

"Washington is an exciting place, and I learned a lot, especially about the government," said Kassab. "It is transcient city, with people always coming and going. I liked it, but not to live there permanently. I was not satisfied with the magazine field or the opportunities for advancement."

Williams started taking general courses at Crowder College over a year ago, then was accepted into the nursing program at Southern.

"I'm doing it slowly," she said, "so I can do a good job, keep my grades up, and still have time for my family."

Kassab's mother, Maridan, graduated from Southern's nursing program in 1978, and is now a head nurse on the sixth floor at St. John's Regional Medical Center. Her father. Anthony, serves on the Board of Regents at Southern.

Missouri Western successfully kicks an extra point despite the efforts of Southern's Mark Kennedy (62), Doug Strubberg (76), Rich Snyder (55), Brad Oplotnik (87), and Tim Jones (22). The Griffons won, 17-10.

Griffons shock Southern

"It was definitely not a good football game," said Southern head football coach Jim Frazier.

In a game that was marked with errors, Missouri Southern's Homecoming festivities were dampened as the Missouri Western Griffons stole victory from the Lions, 17-10.

Southern had a total of sin turnovers. The final fumble resultedg in the game-winning touchdown.

"We're a better football team than yards passing. we showed in Saturday's game," said Frazier, "It was so unnessary, the fumbles-the turnovers and missed assignments. It all goes back as a lack of concentration.

"Western did not take us out of our game plan. We took ourselves out. We just got off track and didn't play up to par," added Frazier.

Southern, ranked second in the NAIA Division I last week, and on top of the Central States Intercollegiate Conference until Saturday's loss. The Lions now share that spot with Pittsburg State University and Washburn.

Frazier's club fell to No. 7 in the NAIA rankings with the defeat-

"Our defense played well once again this week," said Frazier. "Our problem is offense.

The Lions' defense held the Griffons to 84 yards rushing and 165 yards via the air. But the usually explosive offense of the Lions was nowhere to be found in Saturday's game. Southern was held to 15 yards rushing and 161

Frazier tried both quarterbacks-Rich Williams and Jeff Kilbane, but neither could get the turnover-plagued Lions on track.

"We need to maintain field position." said Frazier. "All we have to do is play six minutes of good football without a fumble or turnover and wa zan win."

Southern squares off Saturday against the Tigers of Fort Hays State University at 1:30 p.m. in Hughes Stadium

"Fort Hays has been a thorn in our side for years," said Frazier. "They

have knocked us out of the conference championship for the last three years.'

But Frazier feels that "we are different people this week. It's extremely difficult for a team to bounce back after its first defeat."

Fort Hays is coming off a defeat against Washburn University last week, 24-3.

In order for the Lions to make their comeback, Frazier said, "Offensively we will have to be more intense. Saturday's loss will either make us better, or make us worse. We'll just have to wait and see.

"It doesn't really make any difference who we play," added Frazier, "It's how we play. If we can control ourselves for the first six minutes-approximately 25 plays-we'll be victorious."

There are two things that will be stressed for the next three weeks in the Lion football camp-academics and football.

"That's all I want the players to think about," said Frazier.

Southern's Tim Jones (2) VonderLinden (31) walk dejectedly of after the Lions were deleated by Western. The loss snapped Southern game winning streak and moved the Lie tie for the top spot in the Centi-Intercollegiate Conference, It also can Lions to fall from second to seventh in a

5 players on line desire to excel

By Dave Griffith

What weights 1,609 pounds and stands nearly 31 feet tall? Missouri Southern's football defensive line.

The Lions are currently ranked fourth in the Central States Intercollegiate Conference in total defense. fifth in rushing defense, and fourth in passing defense.

But more importantly. Southern's defense has held its CSIC opponents to only 52 total points in four games. That ranks second in the league behind reasons. Oplotnik, a senior from Carl Washburn University.

over-achieving, said Rod Giesselmann, defensive coordinator. "We're using our talents in the fullest and we build on the positive points of each player."

The defensive line consists of five players-Brad Oplotnik, outside linebacker; Doug Strubberg, defensive tackle: Aaron Usher, noseguard: Rob Nolle, defensive tackle; and Rich Snyder, outside linebacker.

These five players share something in common-their desire to excel and play up to their expectations. "We're consistent and we play

together as a team," said Usher, a 224-pound senior from Wichita.

Junction, said, "It was close to home. "We have some players that are I'm a computer major and Southern has an excellent computer program."

Nolle, a junior from St. Louis, said, "I wanted to play on the astro turf and Southern was the only school in Missouri that had it."

Strubberg, a sophomore from Washington, Mo., said, "I like (Jim) Frazier's direct approach."

Frazier, the heari coach, said two weeks ago: "The defense can be characterized by Strubberg and Nolle. They give you 100 per cent all the

Snyder, a senior from Cape Girardeau, said, "I knew some people who went to Southern and Frazier let me walk on." Snyder is a physical They came to Southern for various education major who would eventually like to coach high school football and teach science after graduation.

Usher said he mame to Southern because it provided him with the best offer. "Many of the larger schools thought I was too small," he said. "Missouri Southern gave me a full scholarship when others like Wichita

State would only give me an scholarship.

One of the major reasons Son defensive line fares so well in the preparation.

"We spend a lot of time with game films," said Nolle.

Said Snyder, "I try to put my game situation mentally all dream about what is going to a and what I will do."

Frank Crosson is the Lion's sive line coach.

"We try to expose our part what they will see come game? said Crosson. "These guys are in telligent players and can pid what the other team is doing.

Giesselmann summed up lie the defensive line. "We bend " don't break," he said.

Lady Lions 'enjoy' sweep over two District 16 foes

By Jonathan Richardson

Missouri Southern's volleyball squad defeated Central Methodist and William Woods in NAIA District 16 competition Tuesday in Fayette, Mo.

"We were relaxed and played like we enjoyed it," said volleyball coach Pat Lipira.

Southern edged Central Methodist 16-6 and 15-10. Tina Roberts racked up 19 kills, six digs, and three blocks. Joanna Swearengin had 11 assists. Junior Missy Stone added 15 service points.

William Woods fell to the Lady Lions 15-13, 5-15, and 12-15. Lisa Cunningham had 24 service points and 18 assists. Becky Gettemeier had nine kills and six blocks. Roberts con-

tributed 13 digs. Southern raised its overall record to 35-9-1 and 17-5 in district play. The final district ratings will be released Sunday, determining what teams will participate in the district tournament digs.

at St. Joseph, Nov. 4 and 5. "We will be there," Lipira said. "It's just a matter of where we are seeded." Southern lost two of three matches last weekend in conference action in

Topeka. "It was a tough weekend," said 10-1 record. Lipira. "We seemed timid and very

nervous.

The Lady Lions topped Washburn 15-9, 15-12, 10-15, 13-15, and 15-5. Roberts led with 27 service points, 14 kills, and 21 digs. Gettemeier added eight blocks.

Missouri Western handed Southern its first conference defeat, 15-7, 15-3, 7-15, 13-15, and 15-10.

Roberts had 22 kills and 30 digs. Cunningham gathered 21 service points and 31 assists. Nancy Jordan provided eight blocks.

Southern was upset by Kearney State 3-15, 16-14, 15-9, 15-17, and 11-15:

"After playing Western for two hours, it's tough to turn around and play Kearney after only a five-minute break," said Lipira.

Western and Kearney are ranked in the top 20 in the NAIA.

Cunningham provided 34 service points and 23 assists. Roberts totaled \$22 kills and 24 digs. Swearengin had 25

Southern, 9-2 in the CSIC, will host Washburn, Fort Hays State, and Wayne State this weekend in Young Gymnasium in the final round of league action. The Lady Lions are ancond in the CSIC, behind Western's
